

Trending Topics you must know as an MBA aspirant

1) India Faces 50% Tariff Shock from Mexico

- India is responding diplomatically after Mexico imposed tariff hikes up to 50% on a range of Indian products. The government is engaged in talks to restore a stable and balanced trade environment.
- The situation highlights challenges in global trade policy, export competitiveness, and reliance on diplomatic negotiation to mitigate trade barriers.

2) India's Economy in 'Goldilocks' Phase

- India is experiencing a rare macro sweet spot with low inflation and high GDP growth, supported by multiple policy rate cuts. This environment has supported borrowers and boosted spending.
- However, there are trade-offs, especially for farmers and savers, and economists caution about sustainability if external shocks hit.

3) High-End Car Sales Drop in China, Hit European Auto Makers

- Luxury car sales in China are sinking as local competitors gain ground, creating a demand shift that's negatively impacting European automakers reliant on Chinese consumers.
- It highlights challenges in global demand patterns, competition, and brand strategy in key markets.

4) World Bank-Backed Clean Air Project in Uttar Pradesh

- The UPCAMP initiative, a World Bank-supported project, will launch in January 2026 to tackle air pollution in the Indo-Gangetic plains using a multi-sector strategy involving clean technology, electric vehicles, and cleaner cooking solutions.
- This signals how public policy + international financing can address environmental issues tied to health and economic productivity.
